Why to Buy:

- **Disk Purge completely erases your data.** It is the perfect solution if you are: selling, donating, returning or recycling your computer.
- **93% of all used computers contain private information** about their previous owners, including credit card and social security numbers, bank account information, medical and tax records, and personal emails.
- **Deleting files and formatting a hard drive still leaves information** on the disk which can easily be recovered by over the counter software programs.
- **Remove all viruses and spyware** from your computer prior to installing new operating system

Features:

- Protects your Identity! Completely erases all your data when selling or donating your computer.
- Offers a very simple-to-use user interface. Supports all drive types.
- Estimates the time for performing the disk erase prior to beginning the process.
- Runs 2-3 times faster than DOS based disk sanitizing products currently available.
- Works even if computer has a missing or unstable operating system.
- **New!** Works with all PC operating systems including Windows Vista™!
- **New!** Sector Viewer. View what is actually on your computer and verify that information is completely removed.
- **New!** Hard Drive Health Check. Let's you know if your hard drive is working as it should.
- **New!** New and Improved. Expanded support for new and old computer hardware systems.
- Government erase meets U.S. Department of Defense 5220-22M standard.
